-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3751

1. Claims 1, 4, 5, 7, 9, 10, 35, 36 and 44-46 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 1 now states "said reusable form member is a single unitary body". This subject matter is not found in the originally filed disclosure and is therefore considered to be new matter. See 76 USPQ2d 1662, at 1675.

2. Claims 24-33, 42 and 43 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 24 is ambiguous as attempting to embrace two different statutory classes of invention. The claim preamble recites a "method", but the body thereof merely relies upon product/apparatus limitations in support of patentability. See IPXL Holdings LLC v. Amazon.com Inc. 77 USPQ2d 1140. Claim 31 is similarly indefinite.

Applicant did not substantively address this rejection in the response filed April 25, 2007.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

4. Claims 1, 4, 5, 7, 9-12, 15-33, 35, 36, 38 and 42-46 are rejected under 35 U.S.C. 103(a) as being unpatentable over applicant's acknowledged prior art and Loftin.

Applicant discloses as acknowledged prior art (apa) an edging constructing apparatus (and swimming pool), as claimed, except for the reusable form being two separate portions (form/support members) removably coupled by a clamp. It would appear the apa reusable form is taught to be a "single unitary body" in the same sense as with the claimed reusable form member. In any event, attention is directed to the Loftin reference which discloses an analogous apparatus which further

Art Unit: 3751

includes a reusable form having two separate portions 26,48 and 46 removably coupled by a clamp 50. Therefore, in consideration of Loftin, it would have been obvious to one of ordinary skill in the edging constructing apparatus art to associate two separate portions (form/support members) removably coupled by a clamp with the apa reusable form in order to enable adjustment.

Applicant's remarks concerning Loftin have been fully considered and have been previously addressed.

5. Applicant is referred to MPEP 714.02 and 608.01(o) in responding to this Office action.

6. The grounds of rejection have been reconsidered in light of applicant's arguments, but are still deemed to be proper.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3751

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

7. Any inquiry concerning this communication should be directed to Robert M. Fetsuga at telephone number 571/272-4886 who can be most easily reached Monday through Thursday. The Office central fax number is 571/273-8300.

A handwritten signature in black ink, appearing to read "Robert M. Fetsuga", with a stylized flourish at the end.
